

APAM CHARITABLE GIVING 2020

ROYAL MARINES CHARITY

The Royal Marines Charity provide support, advice and friendship to serving and retired royal marines and their families. We are proud to support this charity and admire the incredible support they give.

THE PRINCE'S TRAINING INSTITUTE

We continue to support the PTI and the fantastic work they do. The PTI delivers a wide range of CPD courses, workshops and activities for teachers at all stages in their career. Such resource has been a vital component for schools during this unpredictable time.

THENHS

Now more than ever it is imperative that we give back to the NHS who have worked tirelessly to look after the less fortunate in this unprecedented time. We are therefore proud to have given our support to the NHS during 2020 and for more years to come.

THE BRITISH LUNG FOUNDATION

We donated to the British Lung Foundation this year to commemorate a former employee and colleague, Tom Beattie, due to the sad news of his passing.

CONSERVATION LOWER ZAMBEZI

Every year we are delighted to support CLZ and the incredible work they carry out. This year some of the team were due to travel to Zambia to see the benefit of their donations first hand but this was cancelled due to Covid. However, we look forward to next year especially to congratulate Ian Stevenson CEO of CLZ who was recently nominated for a lifetime achievement award by Prince William's Tusk Charity.

BARNARDO'S CHARITY (KIDSMAS)

Christmas time is a time to think of others and therefore, as a business, we decided to donate our unused Christmas Party allocated funds to Barnardo's Kidsmas. Barnardo's supports children, young people and their families.

HUNTINGTON'S DISEASE ASSOCIATION

Pre-Covid we hosted our first 'Workwell Talk' by welcoming Sarah Winkless (former British rower) to discuss her rowing career and the challenges and opportunities she faced. Sarah is also a campaigner for Huntington's Disease Charities having tested positive for the gene mutation while she was at university. We are proud to support the Huntington's Disease Association.
